Dear Supervisors and Commissioners:

**APPROVE A COMMUNITY DEVELOPMENT BLOCK GRANT REIMBURSABLE
CONTRACT WITH CENTURY COMMUNITY CHILDREN'S CENTERS, INC. (2)
(3 Vote)**

IT IS RECOMMENDED THAT YOUR BOARD:

1. Find that the remediation activities required at Assessor's Parcel Number (APN) 6148-006-019, commonly known as 1200 East Imperial Highway, in unincorporated Willowbrook (the Site), are exempt from the provisions of the California Environmental Quality Act (CEQA), as described herein, because the work involves activities that will not have the potential for causing a significant effect on the environment.
2. Approve a Community Development Block Grant (CDBG) Reimbursable Contract (Attachment A) with Century Community Children's Centers, Inc. (Century), presented in substantially final form, for environmental remediation activities at the above site, using \$107,510 in CDBG funds allocated to the Second Supervisorial District, to be effective following approval as to form by County Counsel and execution by all parties, through June 30, 2006.

3. Instruct the Executive' Director of the Community Development Commission, acting as agent for the County of Los Angeles, to execute four copies of the attached standard CDBG Reimbursable Contract and all necessary administrative amendments thereto.

IT IS RECOMMENDED THAT THE BOARD OF COMMISSIONERS OF THE COMMUNITY DEVELOPMENT COMMISSION:

Authorize the Executive Director of the Community Development Commission to incorporate \$107,510 in Community Development Block Grant (CDBG) funds allocated to the Second Supervisorial District into the Commission's approved Fiscal Year 2005-2006 budget, to fund a CDBG Reimbursable Contract with Century Community Children's Centers, Inc. (Century), for environmental remediation activities required at Assessor's Parcel Number (APN) 6148-006-019, commonly known as 1200 East Imperial Highway, in unincorporated Willowbrook (the Site).

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:

The purpose of this action is to approve a CDBG Reimbursable Contract that will allow for environmental remediation of the Site, which will later be used for development of a childcare facility.

FISCAL IMPACT/FINANCING:

There is no impact on the County general fund. The proposed CDBG Reimbursable Contract will be funded with a total of \$107,510 in CDBG funds allocated to the Second Supervisorial District. The CDBG funds will be incorporated into the Commission's approved Fiscal Year 2005-2006 budget.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

Century is a California nonprofit corporation established July 16, 1999, for the purpose to provide affordable or low-cost childcare, recreational and educational opportunities to children of families of limited means and to lessen the burdens of government and otherwise promote social well-being.

The 40,838 square-foot Site is part of a total of three vacant parcels (see map, Attachment B) that Century will use for development of a childcare center. The childcare center will serve children from low- and moderate-income households in unincorporated Willowbrook and adjacent communities, which are areas with a disproportionate need for childcare services.

On January 21, 2003, the Chief Administrative Office transferred the Site to Century Community Children's Centers, Inc. for development of the childcare center. This parcel initially was owned by the California Department of Transportation as excess land from the construction of the Century Freeway.

On September 20, 2005 the Board authorized the Commission to acquire two parcels adjacent to the Site. After remediation of the Site is complete, all parcels will be assembled for development of the childcare center.

CDBG funds will be used for project management and environmental remediation services at the Site, including excavation and appropriate disposal of approximately 333 tons of lead-impacted soil, lab testing to confirm that lead levels remaining on the site do not exceed regulatory standards, and other, related work.

Should Century require additional or replacement personnel during the term of the agreement, it will give consideration for any such employment openings to participants in the County's Department of Public Social Services' Greater Avenues for Independence (GAIN) Program and General Relief Opportunity for Work (GROW) Program who meet the minimum qualifications for the open positions. Century will contact the County's GAIN/GROW Division for a list of participants by job category.

The minority and female composition of the Board of Directors and staff of Century Community Children's Centers, Inc. is provided with this letter as Attachment C.

The attached CDBG Reimbursable Contract is being presented in substantially final form, and will be effective following approval as to form by County Counsel and execution by all parties.

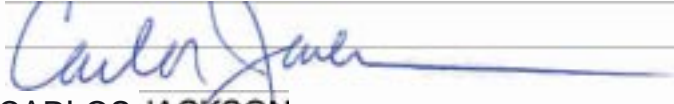

ENVIRONMENTAL DOCUMENTATION:

Pursuant to 24 Code of Federal Regulations, Part 58, Section 58.34(a)(10), this project is exempt from the National Environmental Policy Act (NEPA), because it involves activities that will not alter existing environmental conditions. It is exempt from the provisions of CEQA, pursuant to State CEQA Guidelines 15330, because it involves a minor action to eliminate the release or threat of release of hazardous substances and does not have the potential for causing a significant effect on the environment.

IMPACT ON CURRENT PROJECT:

The project meets the HUD national objective of providing services to low- and moderate- income persons in the Second Supervisorial District.

Respectfully submitted,

CARLOS JACKSON
Executive Director

17. USE OF FUNDS. All funds approved under this Contract shall be used solely for costs approved in the program budget for this Contract. Contract funds shall not be used as a cash advancement between contracts, as security to guarantee payments for any nonprogram obligations, or as loans for nonprogram activities. Separate financial records shall be kept for each funding source.
18. REPORTS AND RECORDS. Operating Agency agrees to prepare and submit financial, program progress, monitoring, evaluation and other reports as required by County. Program progress reports shall be submitted on a monthly basis, in the form specified by the Executive Director or his designee. right of access to all activities and facilities operated by the Operating Agency under this Contract. Facilities include all files, records, and other documents related to the performance of this Contract. Activities include attendance at staff, board of directors, advisory committee and advisory board meetings, and observation of on going program functions. The Operating Agency will ensure the cooperation of its staff and board members in such efforts. The Executive Director or his designee may conduct program progress reviews. 22. TERMINATION FOR CONVENIENCE. The County reserves the right to cancel this Contract for any reason at all upon 30 days prior written notice to Operating Agency. In the event of such termination, Operating Agency shall be entitled to a prorated portion paid for all satisfactory work unless such termination is made for cause, in which event, compensation if any, shall be adjusted in such termination.
23. TERMINATION FOR CAUSE. This Contract may be terminated by the County upon written notice to the Operating Agency for just cause (failure to perform satisfactorily) with no penalties incurred by the County upon termination or upon the occurrence of any of the following events in i, ii, iii or iv:
 - i. Should the Operating Agency fail to perform all or any portion of the work required to be performed hereunder in a timely and good workmanlike manner or properly carry out the provisions of the Contract in their true intent and meaning, then in such case, notice thereof in writing will be served upon the Operating Agency, and should the Operating Agency neglect or refuse to provide a means for satisfactory compliance with this Contract and with the direction of the County within the time specified in such notice, the County shall have the power to suspend or terminate the operations of the Operating Agency in whole or in part.

 - iv. In the event that a petition of bankruptcy shall be filed by or against the Operating Agency.

If, through any cause, the Operating Agency shall fail to fulfill in timely and proper manner the obligations under this Contract, or if the Operating Agency shall violate any of the covenants, Contracts, or stipulations of this Contract, the County shall thereupon have the right to terminate this Contract by giving written notice to the Operating Agency of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In such event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs and reports prepared by the Operating Agency or under this Contract shall, at the option of the County become its property and the Operating Agency shall be entitled to receive just and equitable compensation for any work satisfactorily completed.

IN WITNESS WHEREOF, the Board of Supervisors of the County of Los Angeles has caused this Contract to be subscribed by the Executive Director of the Community Development Commission, and the Operating Agency has subscribed the same through its duly authorized officers, the day, month and year first above written.

PROJECT DESCRIPTION AND ACTIVITY BUDGET

Purpose & Project Description

The purpose of this Contract is to provide reimbursement to Century Community Children's Centers, Inc. for environmental remediation services for the project management, and environmental remediation services for the removal and appropriate disposal of lead-impacted soil from a 40,838 square foot parcel, owned by Operating Agency, located at 1200 East Imperial Highway, Los Angeles, California, (APN 6148-006-019). Upon completion of the remediation activities, the project site is proposed for the development of a childcare facility for children from low- and moderate-income households in the unincorporated County and adjacent communities.

Remediation services will include review of site assessment documentation, preparation of a remedial excavation plan, demolition and recycling, or disposal of asphalt covering the excavation areas, excavation and appropriate disposal of lead impacted soil, performance of confirmation soil sampling of the excavated areas, lab testing to confirm that lead levels remaining on the site do not exceed the U.S. Environmental Protection Agency's Preliminary Remediation Goal (PRG) for residential use of 150 milligrams per kilogram (mg/kg), and preparation and submission of a closure report. All work will be performed by appropriately certified and licensed personnel.

History

The Chief Administrative Office of the County of Los Angeles transferred this parcel to Century Community Children's Centers, Inc., on January 21, 2003. The parcel was owned by the California Department of Transportation (Caltrans) as excess land from the construction of the Century Freeway. The parcel is currently a vacant lot.

In October 2002, Ecology and Environment, Inc.'s Superfund Technical Assessment and Response Team (START) conducted a Brownfields Target Site Assessment (BTSA) on the subject property. The START conducted the BTSA to investigate site environmental conditions that could affect redevelopment options at the site. Soil and soil gas were sampled and analyzed to document contaminant concentrations. The report concluded that based on the analyses performed, no hazardous compounds were detected above health-based action levels. However, total lead was detected up to 320 mg/kg. At the time the BTSA was performed, the USEPA Preliminary Remediation Goal (PRG) for lead was 400 mg/kg. In December 2002, the USEPA issued a revised PRG for lead of 150 mg/kg. Comparing the updated lead PRG with the previous sample results indicates that 10 of the 44 samples analyzed for lead exceeded the current lead PRG.

Rincon Consultants, Incorporated completed a soil assessment at the subject property (report dated November 10, 2003) in order to characterize the lateral and vertical extent of lead on the subject property. Lead detected in the soil samples analyzed exceeded the residential preliminary remediation goal (PRG-R) level (150 milligrams per kilogram) at ten sample locations. The corresponding deeper soil samples (1.5 or 3-foot deep samples) from these borings had concentrations of total lead less than the PRG-R. Twenty-seven soil samples collected from 0.5 feet or 1.5 feet below ground surface had total lead concentrations in excess of 10 times the soluble threshold limit concentration (STLC) for lead. Soluble analysis was performed on these samples to determine if pursuant to Title 22 of the California Code of Regulations these soil samples would be classified as a California hazardous waste. The soluble analysis indicated that fourteen of the soluble levels of lead exceed the STLC for lead. Therefore, the samples would be classified as a California hazardous waste for disposal. To determine if the soil at these location would also be classified as a Federal Resource Conservation and Recovery Act (RCRA) waste, a toxicity characteristics leaching procedure (TCLP) analysis was performed. The regulatory level for a RCRA hazardous waste classification by TCLP is 5 mg/L. The TCLP levels ranged from non-detectable to 0.62 milligrams per liter (mg/L). Therefore, based on the analysis performed, the soil would not be classified as RCRA waste.

Two rounds of sampling were conducted on the site to delineate the lead levels exceeding the lead PRG-R (September 3, 2003 and October 27, 2003). Initially, due to the size of the project site, the soil borings were completed with 40-foot spacing between each soil boring location. During the initial assessment, eight areas were identified with lead levels exceeding the PRG-R. Therefore,

step-out borings were completed around the eight identified areas in order to reduce the sample spacing from 40 feet to 20 feet spacing between each sample point exceeding the PRG-R.

Based on the latest assessment, ten areas (six areas approximately 20 feet by 20 feet by 1.5 feet and four areas 20 feet by 20 feet by 3 feet) have lead levels above the PRG-R.
